

Cargo

Nor6

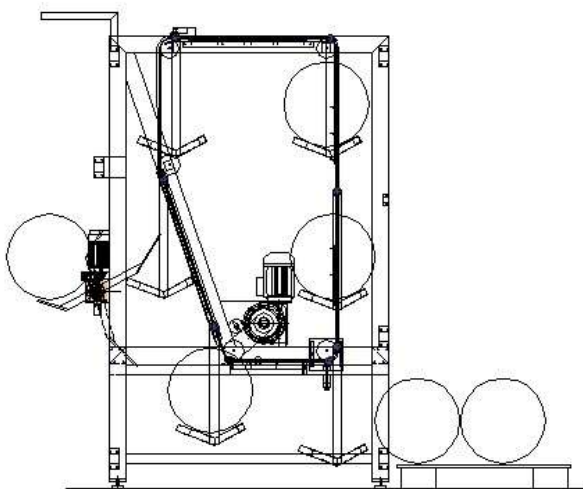

**THE AUTEX CARGONOR6 LOADER IS THE PERFECT SOLUTION TO
AUTOMATE YOUR SPREADING AND AVOID LIFTING ROLLS.**

CargoNor6

The **CargoNor6** is a semi-automatic carousel with a **6-roll fabric capacity**, designed to enhance efficiency in the spreading process. Its **rotating spindle** loading system ensures a safe and precise transfer of rolls to the **Lider Plus** machine, optimizing time and reducing effort.

Its safe and automated operation guarantees a continuous workflow, adapting to production needs with **greater speed and reliability**.

Loading zone

Technical Features

- **Capacity:** 6 fabric rolls
- **Maximum roll diameter:** 50 cm
- **Maximum roll weight:** 40-45 kg
- **Dimensions:** 2550 mm (width) x 1650 mm (length) x 2600 mm (height)
- **Loading system:** Rotating spindle
- **Electrical connection:** 3F 380V (R S T + ground), 50/60Hz
- **Total power:** 2.5 KW
- **Motors:**
 - Carousel motor: 3F, 1500 RPM, 1.5 KW
 - Unloading motor: 3F, 1500 RPM, 0.25 KW
- **Noise level:** Leq < 70dB(A)
- **Safety system:** Sensors and micro-switches ensuring safe operations
