

Cargo

**WIDE RANGE OF FAST AND SAFE LOADERS THAT FACILITATE
LOADING FROM THE TABLE**

Smart, robust, and customized solutions for efficient fabric roll handling.

Autex presents the CARGO range a complete set of roll loaders designed to simplify, optimize, and automate the roll loading process on spreading machines. Developed for different fabric types, weights, and production setups, Autex loaders ensure safety, productivity, and ergonomics in every operation.

AVAILABLE LOADER RANGE:

➤ Tabletop Loaders

- **CARGO60 / CARGO80 / CARGO81**

Mounted on the machine, they load rolls from the table to the cradle. Models for Línea Pro and Línea Plus, up to 100 kg.

➤ Floor Loaders

- **CARGO100 / CARGO200 / CARGO600**

Load from floor to cradle, adapted to Línea Pro, Plus, and Tecno. Up to 100 kg.

- **CARGO300 / CARGO500 / CARGOJEANS 300**

Designed for Goliat 300 and 500, ideal for heavy fabrics such as denim, with capacities from 300 to 500 kg.

KEY ADVANTAGES:

- Increased productivity thanks to reduced roll loading times.
- Ergonomic design: eliminates manual effort and reduces injury risk.
- Full compatibility with Autex spreading machine lines.
- Heavy-duty construction for constant, demanding workloads.

Discover how CARGO loaders can transform your workflow with efficiency, accuracy, and safety.
