

Linea *Pro*

INNOVATION AND EXPERTISE IN AUTOMATIC SPREADING

LineaPro

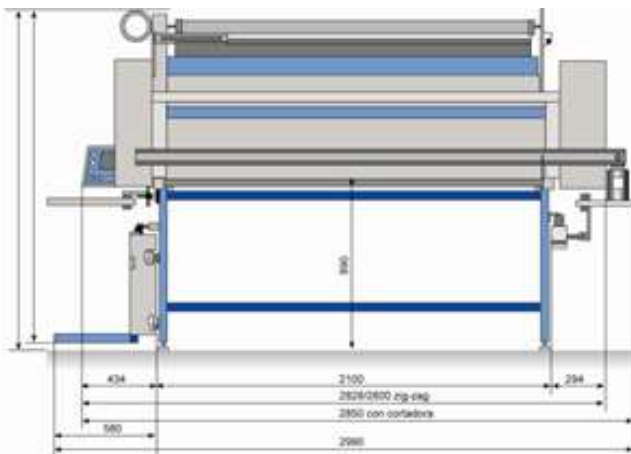

*The perfect blend of cutting-edge technology and proven expertise results in **Linea Pro**, the most versatile automatic spreading machine on the market. Its cradle-to-single-conveyor-belt system allows any type of fabric to unroll quickly and without tension marks, ensuring maximum spreading quality.*

*Additionally, with the **tubular fabric accessory**, Linea Pro incorporates all the capabilities of the PUNT series (PUNT 300 / PUNT 301), delivering a complete tubular spreading solution without requiring a separate standalone machine.*

KEY FEATURES

- Robotic technology featuring a sliding ramp system for smooth, tension-free fabric flow.
- Automatic Check Control system with real-time monitoring to guarantee top quality.
- Adjustable speed up to 100 m/min, customizable to match production demands.
- Automatic spreading height detector for optimal fabric positioning.
- High-speed cutting system with variable frequency drive.
- Intelligent end-of-fabric detection and cycle restart.
- Reverse-rolled fabric spreading system.
- Intuitive digital touch screen control for easy parameter setup.
- Complies with **EU** safety standards.

AUTEX reserves the right to make any technical modifications.

OPTIONAL FEATURES AND CUSTOMIZATION

- Tubular Spreading Attachment/Module (PUNT 300 / 301 Functionality):
 - Adjustable calenders supporting tubular fabric widths from **23 to 120 cm**.
 - 4-wheel drive (4WD) and automatic dual feeding system for book-folded fabrics.
- **EWON** remote connection system for online technical assistance.
- **Zig-Zag** spreading system and dual conveyor belt.
- Roll meter counter program and time tracking.
- Quick loader and operator platforms.
- Customizable cutting tables (standard, air-blow, or conveyor).

Optimize your production with **Linea Pro** — excellence and maximum versatility in automatic spreading.
